The deluge of business was caused by a coterie of bold Westerners. Toward the close there was a sharp reaction in prices, some stocks declining with considerable violence. Traders are feverishly awaiting Tuesday's developments.

REPUBLIC SPECIAL. New York, April 22.-Records went to REPUBLIC SPECIAL. on the Stock Exchange Monday. Never before have the brokers done such an enormous volume of business. The number of shares sold was 2,392,737, more than 200,000 over the record made last Friday, when 2,-226,700 shares were dealt in. Throughout the day the sales were made in unprecedented volume. For example, the rise in Southern Pacific from 48 on Saturday to above 53 Monday was accompanied by sales of 343,000

It was six minutes after 3 o'clock before the ticker stopped recording sales. It was quite certain that the reporters missed many transactions which would consider-ably swell the total. Taking into consideration the trading on the curb and on the consolidated exchange the transactions approximated 3,000,000 shares, an aggregate that simply taxes the facilities of a trade, schanism of which has been brought to its highest degree of perfection in the last

important factor in the market is that every bucket shop of prominence in the country is helping along the bull proposition; that is to say, they have had to hedge against their customers' purchases by entering the market as bona-fide buyers to prevent their capital from being impaired. STOCK MARKET OPENED WILDLY.

As was the case last week, the ticker was slow in getting a start, but when it settled down for business it struck the limit of speed and never slackened down a second in the first two hours. Chicago was in the market this morning on a tremendous scale, to make up for Saturday, when the traders of that city were cut off from mar-ket service by the interruption in the teleket service by the interruption in the tele-graph wires, owing to the storms. Chicago, Ill., April 22.-George H. Phillips scored a big victory on the Board of Trade Monday, putting shorts in corn to rout and forcing the price of May corn up to 461/2 cents, an advance of 2 cents on the day and the highest figure May corn has sold at since the present bull campaign started.

The trade was greatly excited all through the session, as the result of the wild efforts of shorts to cover, but Phillips managed to keep a tight rein on the market, and was at

all times master of the situation. At the

close May corn rested at 46% cents. After the close the young corn king was surrounded by many of his friends, who ongratulated him on the success of his bull campaign.

CROWD IN FRENZY TO BUY CORN.

The young corn king stood in the middle of the pit when the opening tap of the bell sounded through the big trading hall, and he had so more than raised his voice to make a bid for May corn when the pit became the scene of a frenzied crowd of traders, all trying to buy at the same time. Phillips kept raising his bids on nearly every trade, and those around him had to e same in order to get their hands on

As has been the case all along, Phillips was backed by buying orders from the countries. try, and that circumstance tended to frighten the shorts all the more. St. Louis houses, in particular, were active buyers, several prominent operators in that city being interested on the bull side of the market.

IS PHILLIPS PLANNING A CORNER!

Is Phillips planning a deal? is the ques-Is Phillips planning a deal? Is the question now being asked on all sides. In view of the fact that the young speculator has such an extensive outside following, it was considered improbable that he intends to do more than "squeeze" the shorts from time to time until the May delivery expires. It is regarded as certain, however, that he is preparing to take all the contract corn here on May deliveries a week from next Wednesday and ship it out.

corn bought up for May delivery.

CORN KING'S

The trade, as a whole, is inclined grant that Phillips's position is a strong one, because of the conditions surrounding the market. In the first place, the country, true to its word, is not shipping in any cash grain to speak of, the current receipts at Chicago for the last month averaging only a little over 100 cars a day. The naviseason is now sufficiently open to gation season is now sufficiently open to enable Phillips to ship out such cash grain as he sees fit, and thus reduce the local stocks to a point that will put shorts at the mercy of the bull forces.

On the advance Monday every holder of corn had a profit in sight, and, realizing sales caused some reaction at times. The undertone of the market, however, remained strong, and the tendency was toward a higher level. as he sees fit, and thus reduce the local

Notwithstanding Constant Medical Attention, Philip Gunn Died at City Hospital.

Despite the constant attention of the City Hospital physicians, Philip Gunn of No. 1114 North Tenth street, whose heart was slit and stitched together Saturday night, died at 3:50 o'clock Monday morning at the hos-

pital.

Doctor H. L. Nietert, superintendent of the hospital, who operated upon Gunn, examined the wound after death. He found that there was no hemorrhage near the heart. The stitches in the heart wall and in the pericardium were found to have perfectly closed the cuts in these two sections of the anatomy. Doctor Nietert concluded that death resulted from the shock of the first wound and the consequent operation, and from the strain upon the heart caused by its great stimulation.

"The organ simply was worn out," said Doctor Nietert. "The wear and tear on the heart is just like the wear and tear on any muscle when it is overexerted. If you work your arm up and down rapidly for a long time, the muscles become exhausted and you will be unable to move the arm at all. In the case of Gunn several times before and during the operation he was on the point of death. I had to use the most extreme measures to stimulate and keep him alive. I hoped that after the operation he would revive. But the heart was exhausted, and the pulse grew weaker and

weaker. I had a physician constantly at the patient's side, but death could not be averted.

"Though the man died, the case remains one of the most remarkable on record. It certainly is the most unusual that I have met with."

Express Messenger and Porter Re sist and Are Injured.

Memphis, Tenn., April 22.-The fast ex press train of the Choctaw, Oklahoma and Gulf Railroad, which left Memphis at 11:40 o'clock Monday night, was held up by three masked bandits at Bridge Junction, Ark., about midnight. It is not known what the booty the robbers secured amounted to, but a dispatch received at police headquarters stated that the express messenger and porter of the train gere injured after re-

sisting the bandits. The engine and mall and express car were cut off from the train and run to a point haif a mile went of the place where the train was stopped. The engine was then detached and tun a short distance up the track, two membershining guard over

the trainmen. The third used dynamite on the express car and blew open the door. It is reported that everything of value in the express car was taken, and it is believed the bandits' haul is large, as this was a heavy run. Bloodhounds from the convict camp at Hulbert, three miles from the scene, are now on the bandits' trail.
